

# ACCESS ARM

**Access ARM** is Azulle's mini PC stick, purpose-built to outperform consumer devices. Designed for **commercial deployment** in **digital signage**, **kiosks**, and **edge computing**, Access ARM supports **multiple displays** from a single, compact device, solving one of the biggest limitations of consumer-grade hardware.

With support for **Android and Linux**, **expandable memory**, and a **fanless design**, it's engineered for 24/7 reliability in high-demand environments. Whether you're upgrading from the original Access or deploying at scale, Access ARM delivers the flexibility, performance, and price point today's integrators and businesses need.
